

Job Title: Senior Consultant
Location: Berlin, Germany
Start Date: Q1 2019

About EnviroSustain

EnviroSustain is one of the only sustainability consultancies in Europe providing a broad range of technical, environmental, sustainability, and energy related services to commercial real estate firms.

The company is now 20 strong, with offices in Berlin, Frankfurt, and Flensburg.

Our Vision: *Healthy, sustainable space. For everyone.*

Our Mission: *To join the dots between the broad range of building-related problems, thus offering a fully holistic approach which provides long-term value to our clients.*

Our Values: *Accountability, Curiosity, Excellence*

About the Role

The Senior Consultant will work on technical due diligence (TDD) and monitoring projects.

Duties will include:

- Conducting site visits
- Attending project meetings
- Conducting necessary data room research
- Writing comprehensive reports
- Managing projects and Junior Consultants

Essential Skills Required

- Native German speaker
- Good spoken and written English
- Must have a degree in architecture, civil engineering, or process engineering
- Excellent organisational skills
- Excellent verbal and written communication skills
- Proficiency with MS Office - Word, Excel, PowerPoint
- Previous experience as a technical consultant
- Self-motivated – you must be proactive and able to take initiative
- Flexibility and adaptability

Desirable Skills

It would be beneficial if the candidate has:

- Fluency in English
- Fluency in other European languages
- Experience in environmental due diligence (EDD) projects
- Experience in conducting energy audits

How to apply:

To apply for this role, please send your CV and a covering letter to berlin@es-info.com with 'Senior Consultant' as the subject line.
